# About Us

Al Seer Marine is a global maritime organization headquartered in Abu Dhabi, specializing in providing a diverse range of maritime solutions. We proudly offer a range of services designed to meet transportation needs, from moving goods across continents to managing complex supply chains and ensuring timely deliveries.

Our comprehensive service approach ensures a seamless journey from conception to realization, leveraging the latest in commercial shipping technology to deliver efficient and reliable solutions.

With our experienced team, advanced technology, and extensive global network, we ensure that your cargo is managed efficiently and reliability at every stage.

# Global Fleet & Operations

With our significant global network, we seamlessly connect continents and markets with our fleet of modern Gas, Crude & Product Tankers, and Dry Bulk ships. We prioritize safety and sustainability on our modern fuel-efficient fleet which handle diverse cargoes enhancing supply chains for valued clients.

Our ships, combined with our operational strategy and skilled leadership team, enable us to consistently deliver excellent results, prioritize environmental protection, and adhere to complex international and local maritime regulations.

# Our Fleet

**LPG Tankers:** Our meticulously designed LPG tankers specialize in the safe and efficient transport of liquefied petroleum gases. Manned by seasoned professionals and powered by cutting-edge technology, we ensure secure and safe delivery.

**Crude and Product Tankers:** Our contemporary fleet of crude and product tankers orchestrates the seamless movement of critical crude oil and refined petroleum products. Adhering to strict safety protocols, we understand the gravity of these shipments.

**Bulk Carriers:** Within our fleet, our bulk carriers handle a diverse array of dry cargo, including minerals, grains, and an array of commodities. Excelling at all aspects of the transport of bulk cargo, we enhance supply chains for our esteemed clients.

# Services Offering

Tailored cargo management solutions,  
driving operational excellence and  
efficiency

# Maritime Asset Management

Al Seer Marine offers strategic solutions for overseeing, operating, and maintaining maritime assets efficiently and effectively throughout their lifecycle.

Our goal is to optimize the performance, reliability, safety, and profitability of the assets while minimizing risks and costs. Integrated project management solutions are provided, including asset acquisition, financing solutions, commercial and technical management, asset upgradation, risk assessment, compliance with regulations, and data-driven decision making.

It is crucial for us to ensure smooth and profitable operation of our maritime business and maintain a competitive edge in the industry.

# Commercial Management

Our commercial management solution includes Full Chartering, Commercial Operations, Marine Accounting, Bunker Management, and Post Fixture services, all aimed at achieving overall business success. Various commercial and operational aspects are expertly managed by our team to guarantee smooth operations, profitability, and regulatory compliance.

Our team comprises of experienced maritime professionals who have a deep understanding of trade, market trends, freight rates, and vessel capabilities to optimize routes and maximize revenue.

# Cargo and Freight Management

Supported by meticulous financial, operational, and market risk management, our cargo solutions improve overall efficiency in managing Dry Bulk, Liquid, and Gas commodities.

Cargo and freight management solutions play a pivotal role in streamlining the intricate logistics of transporting goods across the globe. By leveraging innovative technologies and industry best practices, our cargo and freight management solutions empower businesses to enhance supply chain visibility, improve inventory management, and meet the increasingly complex demands of global trade, ultimately driving operational excellence and customer satisfaction.

# Advisory & Investment Solutions

By leveraging our deep understanding of maritime markets, regulatory frameworks, and industry trends, we help clients make informed decisions to enhance profitability and mitigate risks in an ever-evolving global maritime landscape. We offer comprehensive guidance and strategic insights to navigate the complexities of the maritime industry.

Our services encompass a wide range of expertise, including market analysis, risk assessment, investment evaluation, and financial structuring tailored to the maritime sector.

# Efficient Operations & Sustainable Solutions

## Integrated Solutions

Our unified system streamlines planning, monitoring, and analysis, enabling us to leverage vessel performance analytics and gain transparent business insights for informed decision-making. Revenue strategies, including voyage charters, time charters, bareboat arrangements, and contracts of affreightment, consistently exceed market benchmarks.

## Commitment to Sustainability

We are dedicated to minimizing our environmental footprint. Our fleet design adheres to or exceeds international environmental standards, exemplifying our dedication to sustainable shipping practices.

**Efficiency**
