

Advancing Maritime Excellence

About Us

Al Seer Marine is a global maritime organization headquartered in Abu Dhabi.

Our extensive service portfolio encompasses commercial shipping, yachting, boat building, large-scale 3D printing, unmanned vessel platforms and capabilities, and cutting-edge technological innovations. We seamlessly integrate top-tier services, innovative technological solutions, and a proven track record of operational excellence.

Whether it's operating a fleet of superyachts with luxurious precision, owning & operating a fleet of commercial vessels, employing innovative additive manufacturing processes, or engineering futuristic unmanned vessels, Al Seer Marine stands as a beacon of expertise, capability, and excellence, capable of transforming any maritime vision into a reality.

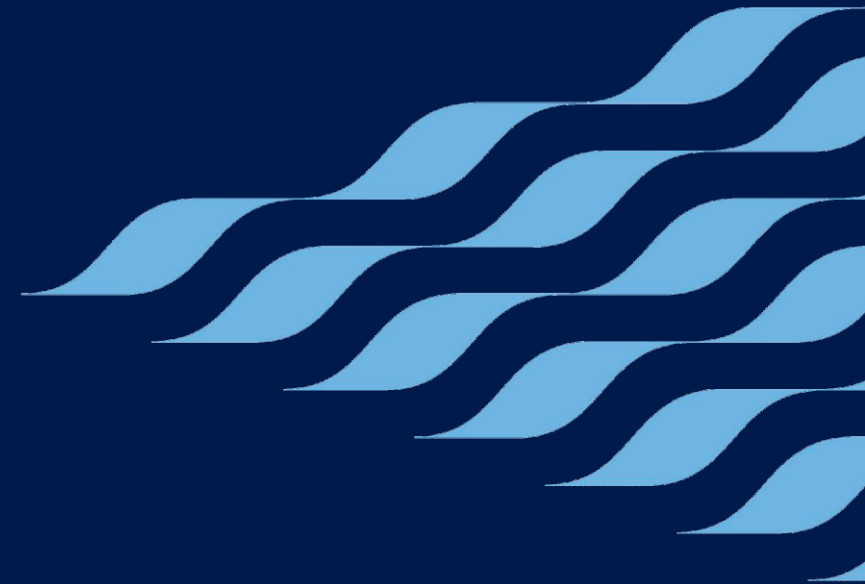

Our comprehensive service approach ensures a seamless journey from conception to realization, leveraging the latest in commercial ship and yacht management innovations. The dedicated boat building team not only excels in additive design techniques and precision builds but also offers extensive training and expert maintenance, ensuring the longevity and performance of our products.

Al Seer Marine part of the IHC

Al Seer Marine is a subsidiary of IHC (International Holding Company), the most valuable listed holding company in the Middle East with a market capitalization of AED 892.8 billion.

IHC's commitment to sustainability, innovation, and economic diversification spans over 1,000 subsidiaries, driving growth across industries like Asset Management & Financial Services, Healthcare, Real Estate, Marine, IT, and more.

Segments of Al Seer Marine

Innovation is always at the heart of everything we do. New ideas & opportunities are what drive us. We constantly strive to optimize and improve the design, operation and safety of our fleet using the latest technologies & processes.

& Technologies

1. Yacht Management

As a leading superyacht company, overseeing some of the largest superyachts in the world, Al Seer Marine provides tailored solutions that cater to our clients' unique requirements.

Yacht Operations

Our full-service yacht management division operates round the clock, overseeing day-to-day operations, technical management, financial management, and handling crew logistics, we take care of every detail.

Crew Management

A multinational team of HR professionals is responsible for the smooth and efficient management of crew members throughout their employment journey, including recruitment, onboarding, training, performance management, and employee relations.

New Builds

Exceptional service is delivered through expert advice and reliable guidance. With a track record of designing, building, upgrading, and servicing some of the largest and most advanced superyachts, our team brings unparalleled knowledge, skills, and experience.

Refits & Retrofits

Al Seer Marine can provide a structure and procedure to plan and execute a refit, upgrade, or a project ensuring progress, budget, and quality are closely monitored.

Purchase & Sale Advisory

With expertise in finding the right superyacht, our services include research, analysis, vetting and shortlisting of yachts, ensuring a streamlined purchase process.

2. Commercial Shipping

Maritime Asset Management

Al Seer Marine offers strategic solutions for overseeing, operating, and maintaining maritime assets efficiently and effectively throughout their lifecycle. Our goal is to optimize the performance, reliability, safety, and profitability of the assets while minimizing risks and costs.

Commercial Management

Our commercial management solution includes Full Chartering, Commercial Operations, Marine Accounting, Bunker Management, and Post Fixture services, all designed to drive business success. Our expert team ensures smooth operations, profitability, and regulatory compliance across various commercial and operational aspects.

Cargo & Freight Management

Our cargo solutions enhance efficiency in managing Dry Bulk, Liquid, and Gas commodities through effective risk management. By leveraging innovative technologies, we streamline logistics, enhance supply chain visibility, and optimize inventory, driving operational excellence and customer satisfaction.

Advisory & Investment Management Solutions

We leverage our expertise in maritime markets and regulations to help clients enhance profitability and mitigate risks. Our services include market analysis, risk assessment, investment evaluation, and financial structuring tailored to the maritime industry.

3. Innovation, Defense & Technologies

Products

Designed and manufactured in the UAE, our high-performance unmanned platforms offer the highest standard of efficiency and performance across a wide range of scenarios. Additionally, our advanced 3D printing technology enables the creation of complex, sustainable components, driving innovation in the maritime industry.

- **11-meter USV:** A mission-proven platform with years of autonomous operations, combining efficiency and performance to make it an ideal solution for a wide range of maritime missions.
- **20-meter USV:** Long-range mission-capable, offering the highest standard of efficiency and performance across a multitude of maritime scenarios.
- **3D Printing:** Leveraging our 3D printing capabilities to develop innovative solutions for sustainable manufacturing and enhancing maritime operations.

Technical Support & Training Services

Comprehensive maritime solutions are provided, including preventive maintenance to enhance asset longevity, customized training for vessel operation, and Integrated Logistics Support to ensure efficiency, sustainability, and readiness throughout the vessel's lifecycle.

Shipbuilding Consultancy

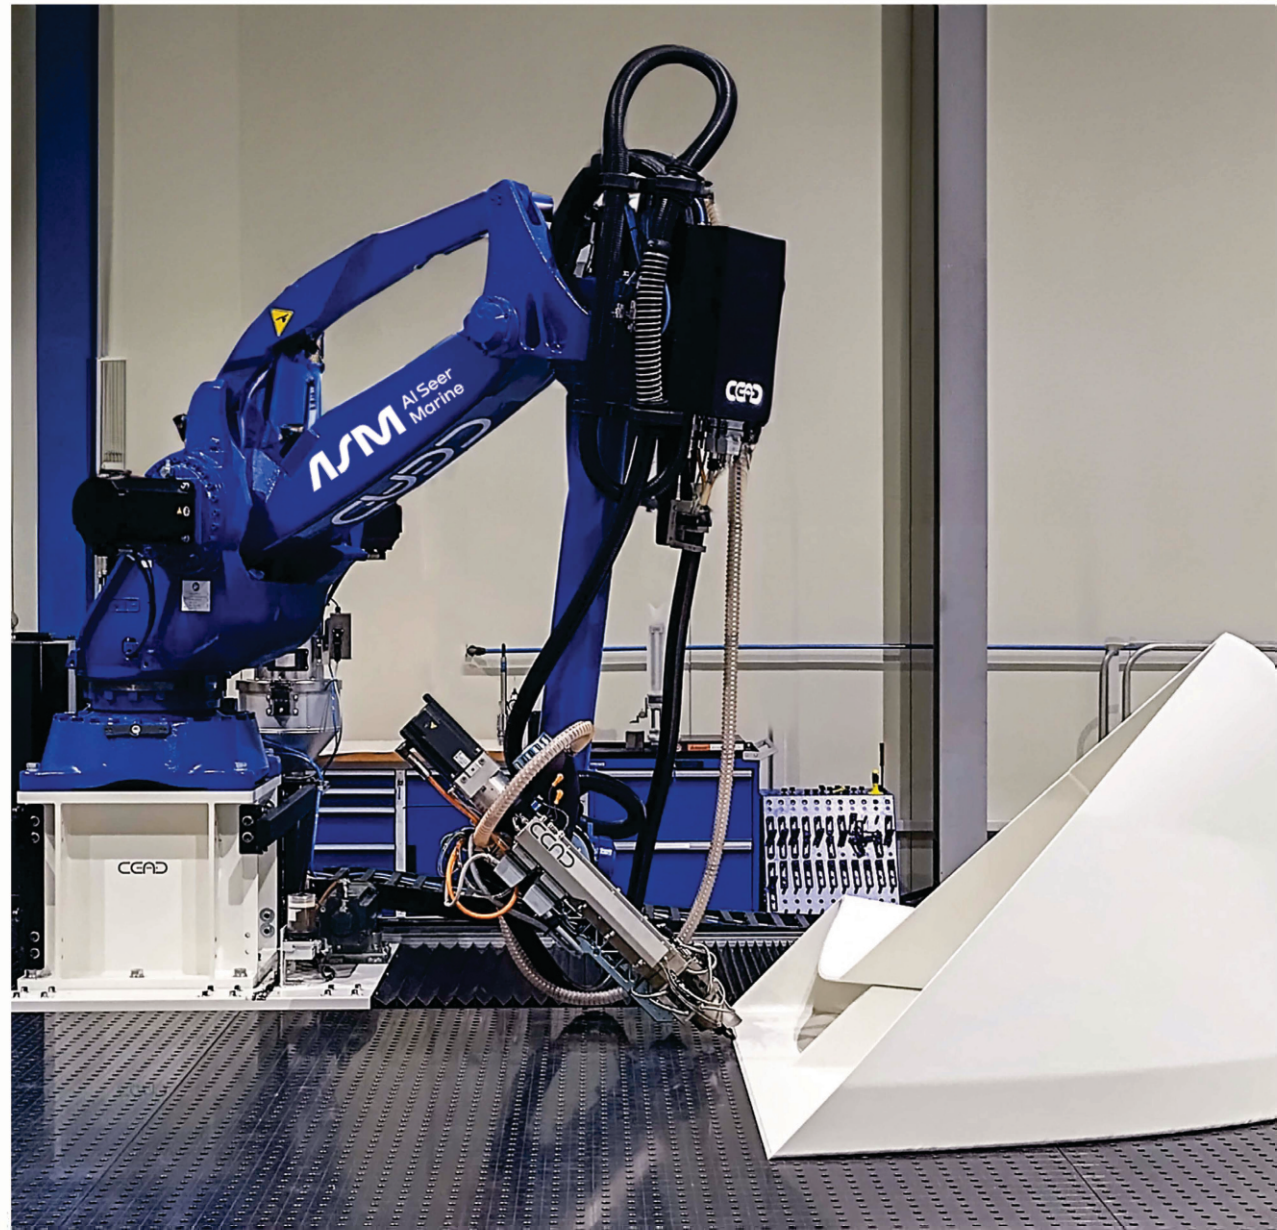

DUNE, a joint venture between Al Seer Marine and Damen International, combines expertise in autonomous systems and ship design. Based in the UAE, it is a global leader in naval and commercial shipbuilding, creating innovative maritime solutions.

Innovation & Sustainability

We pioneer large-scale 3D printing, integrating Boatbuilding 4.0 and data-driven manufacturing to revolutionize production. By using sustainable materials, we create complex structures with a lower carbon footprint, driving innovation across industries.

In parallel, we collaborate with reputable specialist companies to deliver secure and advanced technology for unmanned systems equipped with autonomous operating capabilities.

This transformative approach not only expands design possibilities but also ensures a low-carbon footprint through the use of recycled materials. In doing so, we contribute to environmentally conscious practices within the maritime industry, driving sustainability and innovation in tandem.

Why choose us

As maritime experts, we offer a diverse array of products and services that are meticulously designed to meet the highest standards. Every project we undertake is driven by focus on quality and attention to detail, ensuring that you receive unparalleled service and results that exceed your expectations.

Excellence, Quality and Innovation

We are committed to delivering superior products and services through continuous improvement and a relentless pursuit of perfection.

Customer Focus

We prioritize understanding and exceeding our clients' expectations by building strong, long-term partnerships.

Sustainability

We are dedicated to minimizing our environmental impact and promoting sustainable practices throughout our operations.

Contact

We look forward to hearing from you!
Please feel free to contact us by sending an email, we will get back to you promptly.
