About Us

Al Seer Marine is a global maritime organization headquartered in Abu Dhabi. Our extensive service portfolio encompasses commercial shipping, yachting, boat building, large-scale 3D printing, unmanned vessel platforms and capabilities, and cutting-edge technological innovations. We seamlessly integrate top-tier services, innovative technological solutions, and a proven track record of operational excellence.

Whether it's operating a fleet of superyachts with luxurious precision, owning & operating a fleet of commercial vessels, employing innovative additive manufacturing processes, or engineering futuristic unmanned vessels, Al Seer Marine stands as a beacon of expertise, capability, and excellence, capable of transforming any maritime vision into a reality.

Our comprehensive service approach ensures a seamless journey from conception to realization, leveraging the latest in commercial ship and yacht management innovations. Our dedicated boat building team not only excels in additive design techniques and precision builds but also offers extensive training and expert maintenance, ensuring the longevity and performance of our creations.

Integrated Logistics Support (ILS)

Comprehensive Through-Life Capability Management (TLCM) and Integrated Logistics Support (ILS) solutions ensure optimal operational readiness, cost-efficiency, and sustainability for marine vessels and defense systems throughout their lifecycle. With a focus on operational excellence, sustainability, and seamless integration of processes, Al Seer Marine supports clients from acquisition to disposal while maintaining mission-critical assets.

Our TLCM & ILS packages are designed to provide end-to-end support to enhance the operational efficiency and longevity of marine vessels and defense systems. Our tailored solutions cater to each client's unique requirements, offering a full spectrum of services.

Maintenance & Technical Support

At Al Seer Marine, safety and performance are the cornerstones of maritime operations. Whether managing a single superyacht or an extensive naval fleet, uninterrupted functionality is essential. Our world-class maintenance division ensures your vessel operates at peak performance, minimizing downtime and maximizing reliability.

With extensive experience serving both private and government clients, our maintenance service record is greatly enhanced by our technical knowledge and innovative approach.

Our comprehensive 360° service offering delivers proactive maintenance approach that uses predictive software to estimate the health of vessel components, anticipating issues before they occur.

Operating 24/7, 365 days a year, the maintenance team is able to swiftly address any issues that arise, provide customized solutions to get your vessel back on the water with minimal disruption.

Supply Logistics

We streamline parts management, ensuring you have essential spares on board to minimize downtime at sea. Our contracts offer competitive pricing and flexible delivery options, allowing you to focus on your operations.

Fleet Maintenance

Our comprehensive fleet support contracts keep your vessels running smoothly, maximizing uptime and minimizing repair costs. We offer customized plans for any size fleet, with preventative maintenance, priority service, and 24/7 support.

Additionally, our riding squads are available to provide on-board assistance and support for day-to-day maintenance and repairs.

- Docking services
- Engine refits
- Electrical and HVAC
- Welding and Fabrication
- Painting and GRP repairs

Training Solutions

Our comprehensive training solutions are designed to meet the specific needs of clients, ensuring they maintain peak operational performance. Through the Training Institute, we conduct thorough Training Needs Analyses (TNA) to create tailored programs that include both formal courses and on-the-job training.

Al Seer Marine Training Institute is fully licensed by the Abu Dhabi Centre for Technical and Vocational Education and Training (ACTVET), ensuring compliance with the highest training standards. Our certified instructors bring internationally recognized credentials and years of hands-on experience, continually updating training materials and methodologies to align with evolving technologies and industry trends.

Subject matter experts with deep expertise across disciplines such as electrical, mechanical, software, communications, and maintenance provide insights to optimize existing platforms and develop new ones.

Unmanned Systems & Consultancy Services

Our Unmanned Systems Consultancy division delivers expert advice and innovative solutions in autonomous marine systems, with a commitment to enhancing safety, efficiency, and sustainability in marine operations. Through a comprehensive range of services including operational area surveys, communications infrastructure, operations management, and regulatory compliance-Al Seer Marine supports clients in navigating the complexities of the evolving maritime landscape.

Why choose us

As maritime experts, we offer a diverse array of products and services that are meticulously designed to meet the highest standards. Every project we undertake is driven by focus on quality and attention to detail, ensuring that you receive unparalleled service and results that exceed your expectations.

Excellence, Quality and Innovation

We are committed to delivering superior products and services through continuous improvement and a relentless pursuit of perfection.

Customer Focus

We prioritize understanding and exceeding our clients' expectations by building strong, long-term partnerships.

Sustainability

We are dedicated to minimizing our environmental impact and promoting sustainable practices throughout our operations.

Contact

We look forward to hearing from you!
